

Product innovation to full commercialization.

Accelerate It.

Develop, scale and commercialize with CPM | Crown – the proven, single-source partner for product and process optimization.

Bring new products to market faster and more sustainably with Crown. As a leader in oilseed extraction for 70+ years, Crown's technical expertise, guidance, proven technologies and Global Innovation Center transform your ideas for protein concentrates, food/beverage, botanicals and other new product segments into profitable realities. With Crown's full-scale, state-of-the art pilot plant, analytical lab and training facilities, you can test product and process feasibility, run benchtop scale to custom processing and commercialize with efficient, continuous operations backed by Crown's Lifecycle360™ single-source support services. Partner with Crown to accelerate your market opportunity.

Start up, scale up and expand with CPM | Crown's expertise.
