

# Bucket Elevators

## You Can Depend On

### TAKING MATERIAL TO A HIGHER ELEVATION

Engineered by CPM | Crown for efficient, reliable vertical conveying.

CPM | Crown bucket elevators are purpose-built for the efficient vertical movement of bulk materials in grain and oilseed processing facilities. Designed for high-capacity lifting within a compact footprint, they provide controlled, consistent material flow with long-term reliability.

Widely used for transporting small to medium-sized bulk materials, CPM | Crown bucket elevators combine robust construction with proven engineering to support dependable, day-in and day-out operation.

# Industry-leading **Bucket Elevator Solutions.**

## **Belt Bucket Elevators**

Designed for free-flowing, granular materials, belt bucket elevators deliver higher lift capabilities, require less drive power, and their smooth operation reduces wear and maintenance.

## **Chain Bucket Elevators**

Designed for abrasive, heavy or high temperature materials, chain bucket elevators deliver superior durability and reliable performance in harsh, demanding environments.

## **Designed for Durability**

- Robust structural design built for long service life
- Parabolic head section minimizes material wear
- Split-type head cover for simple installation, inspection and maintenance

## **Additional Features**

- Antistatic drum lagging for increased traction, efficiency and durability
- Inspection and access doors

## **Built for Safe Operation**

- Misalignment detection
- Bearing temperature monitoring
- Rotational speed monitoring
- Pressure relief systems

## **One call. Total support.**

Our commitment to you doesn't stop at installation. **Lifecycle360™** is CPM | Crown's single-source support program, providing expert guidance and service across the full lifecycle of your facility—from pre-engineering through long-term operation—to help optimize efficiency, reduce risk and maximize uptime.

- One call connects you to single-source Lifecycle360 support
- Strategic global parts inventory ensures fast access to critical components
- Global service network helps you get back up and running quickly and confidently

Feeding, Fueling and Building **a Better World.**
