

# Drag Conveyors

## You Can Count On

### ENCLOSED CONVEYING WITH MAXIMUM CONTROL

Engineered by CPM | Crown for reliable, efficient material handling.

CPM | Crown drag conveyors deliver space-efficient conveying for demanding oilseed processing applications. Using chains and flights within a fully enclosed housing, our systems convey material horizontally or on steep inclines—up to and beyond 90 degrees—while providing excellent containment, durability and long-term performance.

Designed by the same experts who engineer complete oilseed processing facilities, CPM | Crown drag conveyors bring proven process knowledge, robust construction and dependable support to every installation.

# Industry-leading **Drag Conveyor Solutions.**

## **Horizontal Loop**

Circulates material in a continuous closed-loop path, allowing multiple infeed and discharge points while efficiently distributing material across a facility footprint.

## **Horizontal Drag**

Moves material in a straight, enclosed horizontal path, providing efficient, low-speed conveying with excellent containment and minimal product degradation.

## **Two Way**

Provides the same efficient, enclosed horizontal conveying as our traditional drag system, with the added flexibility of multiple infeed and discharge points.

## **L-Path**

Combines horizontal and vertical conveying in a single, compact system, enabling smooth material transfer where elevation change and space constraints exist.

## **Vapor Tight**

Features fully enclosed, vapor-tight construction to prevent vapor escape, making it well suited for applications requiring the highest level of containment and safety.

## **One call. Total support.**

Our commitment to you doesn't stop at installation. **Lifecycle360™** is CPM | Crown's single-source support program, providing expert guidance and service across the full lifecycle of your facility—from pre-engineering through long-term operation—to help optimize efficiency, reduce risk and maximize uptime.

- One call connects you to single-source Lifecycle360 support
- Strategic global parts inventory ensures fast access to critical components
- Global service network helps you get back up and running quickly and confidently

Feeding, Fueling and Building **a Better World.**
